

# RESUME

## ABOUT ME .....

"Hey, I am Marie a **Digital Designer** with a passion for **programming**! Right now I am searching for a job as UI-Designer in an innovative team that is open to new ideas and coffee breaks. I love travelling and usually stop at any opportunity to make some good shots with my camera. But my real passion is creating innovative interfaces for Websites and Apps! My former internships gave me the opportunity to learn how to program and design from some of the leading companies in Austria and now I am more than eager to use that to make your projects awesome!"
